AMENDMENTS TO THE DRAWINGS

The attached sheet of drawings includes changes to Figure 2. This sheet replaces the original sheet including Figure 2. In replacement Figure 2, reference number 30 now points to the crease instead of to the spacer.

Attachment: Replacement Sheet
Annotated Sheet Showing Changes

REMARKS

Reconsideration is respectfully requested.

Specification

Applicant notes the Examiner's objection to the specification due to an informality in that the continuing data listed on page 1, lines 5-6 of the specification (submitted with the amendment dated August 16, 2006) appeared to be incorrect. Applicant has deleted the material objected to by the Examiner, which was inadvertently added in the August 16, 2006 amendment.

Drawings

Applicant acknowledges the Examiner's objection to Figure 2 because reference number 30 was pointing to the spacer and not the crease. Applicant submits herewith a Replacement Sheet showing the corrected Figure 2 and an annotated sheet showing the changes in compliance with 37 C.F.R. § 1.121(d).

Claim Objections

Applicant notes that the Examiner objected to claim 5 because of an informality, in that there is a lack of antecedent basis for "said one half of a first whole sheet" and "said one half of a second whole sheet." The claim has been amended to correct this.

Allowable Subject Matter

Applicant notes that the Examiner has found that claims 1, 4, 6-19, 21-22, 26-27, 29-30 are allowed over the prior art of record and that the Examiner stated that claim 5 would be allowable if rewritten to overcome the objections stated above. Claim 5 has been rewritten to overcome the Examiner's objections.

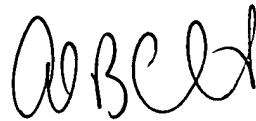

Applicant further notes that the Examiner has not objected to claim 3 and claim 3 has never been canceled. Claim 3 is dependent on claim 1, which has been allowed. Claim 3 is thus allowable subject matter in this application and Applicant requests its allowance.
